

Weald of Kent
Grammar School

Mr K Fidock – Assistant Head Teacher

I oversee public and internal examinations, data analysis, reporting and assessment for the whole school along with parents' meetings. I have been a science teacher specialising in biology for 24 years starting at a Kent comprehensive. I have been at Weald for 14 years as Head of Science and Assistant Headteacher. This year I gained my NPQSL and have a Masters degree in Subject Leadership. I am very much looking forward to developing further our Eco credentials and student and parent engagement with the school by reforming our reporting system.
