

21 May 2021

Dear parents and carers,

Medic Mentor

I wanted to share with you an opportunity for students interested in the medicine, dentistry and veterinary professions.

Medic Mentor www.medicmentor.co.uk is an organisation which offers both work experience and conferences to students interested in the above careers. The work experience is virtual and free of charge. The conferences are £50 but we have been kindly offered some funded places, please refer to the attached document. The funding code is wealdgs. All opportunities are either in the evening or at weekends and parental permission and attendance is required.

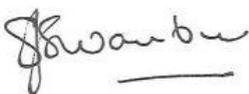

For Medical work experience students should apply through the following link [University Hospitals Birmingham Trust Virtual Work Experience | Medic Mentors](#).

Work experience programmes for aspiring dentists and vets can be accessed directly via the website www.medicmentor.co.uk.

Most of the available resources are for medics, vets and dentists, however there are also work experience opportunities in nursing; midwifery; para medicine; physiotherapy; occupational therapy; dietetics; radiography; prosthetics and orthotics; speech and language therapy; osteopathy; pharmacy and podiatry. <https://alliedhealthmentor.org/nhs-healthcare-careers-virtual-work-experience/>. We understand that for some opportunities there is an administrative fee of £10.

Please do take a look at the website if your child is considering a career in one of these professions. If you have any questions please contact me via email at sswanton@wealdgs.org.

Yours sincerely,

Sara Swanton
Careers Manager
