1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which pupils with disabilities can participate in the curriculum
- Improve the physical environment of the school to enable pupils with disabilities to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to pupils with disabilities

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

Curiosity, courage and compassion are the school vision and values which underpin the ethos of Weald of Kent Grammar School. These values help to ensure that:

- All our students achieve their full potential
- We are a fully inclusive school and welcome all students regardless of race, ability, language or culture
- We are equally ambitious for students who may have a disability
- For pupils who have a disability, we offer the opportunity to access the full range of opportunities to learn new skills and concepts and to develop their talents.

We are committed to providing a fully accessible environment which values and includes all students, staff, parents/carers and visitors regardless of their cultural, educational, emotional, physical, sensory, social and spiritual needs.

This plan will be made available on the [school website](#), and paper copies are available upon request.

Our school is committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

Our school's complaints procedures cover the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising concerns.

2. Legislation and Guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has 'substantial' and 'long-term' adverse effect on their ability to undertake normal day-to-day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments, such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a pupil with disabilities faces in comparison with a pupil without disabilities. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

Further details of the way in which our school creates increased accessibility to the curriculum for pupils with a disability can be found in the SEND policy and the SEND Information report.

3. Monitoring arrangements

This document will be reviewed every 3 years, but may be reviewed and updated more frequently if necessary. For example, if a student with a disability as defined by the legislation cited above were to join the school. It will be approved by the governing body.

Currently, the school considers that it is compliant with requirements for Accessibility and has no immediate actions. Training around supporting students with SEND is ongoing and under constant review.

Should a need arise for wider review, as outlined above, a new action plan will be drawn up.

4. Action plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.
