KPMG's 2027 Apprenticeship Programme

KPMG have opened applications for their 2027 apprenticeship programmes in Audit, Tax and Corporate Services — school leaver routes into a Big Four firm, where students earn a salary from day one and study towards a professional qualification or a degree with dedicated study time built into the working week.

Roles fill quickly and close as they are filled, so students are advised to apply early.

See [here](#) for the current vacancies.

Mayer Brown Solicitor Apprenticeship

For those interested in a career in law, the Mayer Brown Solicitor Apprenticeship offers a unique opportunity to earn, learn and qualify as a solicitor without incurring university tuition fees.

During the programme you can earn while you learn, achieve a recognised legal qualification, work with a global law firm developing skills and experience worldwide and qualify as a solicitor through the apprenticeship programme.

The programme will help you to become a lawyer with the knowledge, skills and experience needed to build a successful legal career while gaining valuable workplace experience from the outset.

InvestIN – Find Your Field

Sign up to a free email series with InvestIN to prepare for your future.

The world is changing fast and there is a lot of pressure for students to start thinking of their future. Find Your Field is designed to help students feel more confident about their next steps. Each week there will be a new topic (including how to get work experience) where you will get practical advice and have an interactive task to complete.

What are the alternatives to a full-time degree or degree apprenticeship?

Find out how HTQs can be the perfect next step after Year 13

Thursday 8 October, 4-5pm

[Register here](#)

We know that there is currently huge demand for higher and degree apprenticeships, but that demand is outstripping supply. Higher Technical Qualifications (HTQs) can be a good option for students to consider, providing a bridge into higher education, higher or degree apprenticeships, or a skilled job, ensuring that they stay on track with their career progression and learning.

In this webinar, Amazing Apprenticeships will share everything you need to know about HTQs, plus hear from a range of HTQ students sharing their personal journeys and how HTQs have supported their career plans.

Even if you are unable to attend live, registering will give you access to the recording, slides and supporting resources afterwards.

Residentials from University of Cambridge

Christ's and Trinity College Women in Maths Residential

Women in Maths targets potential female applicants to Mathematics and adjacent highly mathematical courses at top universities. The programme will next take place from Monday 5 to Wednesday 7 April 2027.

If you are entering Year 12 and would like to be notified for the 2027 event, please register your interest [here](#).

During your stay, you will have the opportunity to explore both Christ's and Trinity Colleges, experience taster lectures led by academics, and meet current students from across Maths and other subjects at the colleges, as well as admissions staff. You will gain an insight into what it is like to live and study at Cambridge.

Christ's and King's College World of Words Residential

The World of Words Residential event is organised in collaboration with King's College, Cambridge for students who attend UK state schools in Year 12 to find out more about the University of Cambridge, student life and explore a variety of academic sessions themed around languages, literatures and cultures.

There are around 100 places available for this programme. This event will next take place from Thursday 8 to Friday 9 April 2027. If you would be interested in this event in April 2027, please register interest [here](#).

Degree Apprenticeships Explained

A live webinar for sixth form students and parents is taking place on Thursday 8 October at 6pm.

If you are exploring university options, don't miss this online session run by the Apprenticeship Ambassador Network (AAN). You will meet degree-apprentices who have gone from sixth form into amazing careers - all while studying for their degree and getting paid.

You will also hear from a leading university about how degree apprenticeships work, the balance between work and study, and why employers from global brands to local innovators are backing this route.

You will have opportunities to ask questions in the chat. These will be followed up afterwards with answers and useful links.
