

# English Language A Level

Now that you are a student of Linguistics, start to prepare for Year 12 by completing the following:

- If possible, find two examples of your writing at Primary School and ask your family what they remember about you learning to speak and write. Write a short overview (up to a side A4) on how your spoken and written language differed as a child.
- Select a newspaper article of your choice (tabloid or broadsheet) and analyse how the writer uses language to influence the reader. (up to a side A4)
  - Include terminology such as nouns, verbs, adjectives, pronouns, modals and sentence types.

Bring both tasks, ready to hand in and discuss, to your first English Language lessons in September.

We look forward to working with you
